Tenting

Your Sonic representative can answer your questions and make suggestions regarding your specific needs.

Frame Tents

Standard Frame Tents are used with minimal staking and anchoring. These are traditional aluminum frame structures without interior support poles and can be erected on any surface.

Structure Tents

Structure Tents offer a dramatic profile featuring beam and arch assembly. These fully engineered structures are weather tight and can be used for a variety of events.

Sailcloth Pole Tents

Sailcloth Tents have elegant lines, sculpted eaves, peaks, and nautical appeal offering an outdoor event space with weather protection. The semi-translucent sailcloth allows for warm, natural light during the day and a dramatic glow when illuminated during nighttime.

Multi-Level Tents

A variety of options are available for your specific event needs.
Ask your Sonic Representative for details.

Elevated Structures

Elevated Structure Tents offer a unique and enhanced view for your event.

Stadium Seating

A variety of options can be customized for your event.
Ask your Sonic Representative for details.

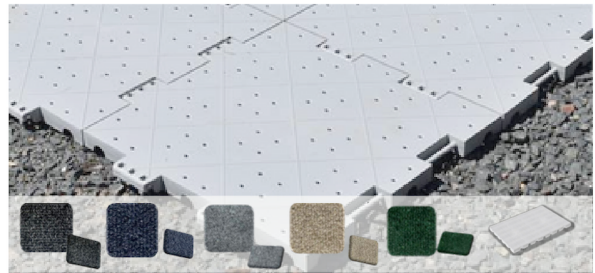

Accessories

All Tents can be enhanced with a variety of options.

CLIMATE CONTROL

Portable HVAC solutions for any structure.

FLOORING

A variety of flooring materials and carpet options are available.

GLASS WALLS | CLEAR TOP

Luxurious and dramatic enhancements.

STAIRS | RAILINGS | ADA

Safety railings and ADA compliance.

LOGO/DESIGN

Personalize your tent by adding your logo or design.

LIGHTING

Enhance your outdoor experience with custom lighting options.
